PROGRAM CURRICULUM

DAY 1 Concept of Money & Basics of Corporate Finance

- Core lecture: Evolution of money (commodity to digital) and its three key functions in corporate settings; fundamentals of corporate finance (capital budgeting, capital structure, working capital management).
- Group workshop: Analyze sample financial statements of a tech startup and a manufacturing firm; calculate key ratios (ROE, current ratio) and deliver 1-minute "CFO's snapshot" presentations for each company.
- Recap & homework assignment: Write a 1-paragraph memo on how a 2% interest rate hike impacts corporate bond issuance decisions.

DAY 2 Debt Market Deep Dive

- Core lecture & Excel tool demo: Debt market landscape (government bonds, corporate bonds, high-yield bonds) and investor profiles; bond valuation basics (yield curves, credit ratings, present value formula application).
- Role-play simulation: Teams take on roles of CFOs, credit raters, and investors to design and negotiate a \$200M 5-year corporate bond issuance (balance coupon rates, credit grades, and risk trade-offs).
- Recap & homework assignment: Research a recent corporate bond default case and list two key lessons for CFOs.

DAY 3 Equity Market & Stock Market Buy Model Game

- Core lecture: Equity market fundamentals (primary vs. secondary markets, IPOs, share buybacks, dilution risks); simplified CFO-relevant valuation models (P/E ratio, DCF focused on free cash flow).
- game briefing: Outline rules of the Stock Market Buy Model Game.
- Stock buy simulation: Teams act as CFO offices to value a public retail target company using P/E and simplified DCF; negotiate with "shareholders" to lock in value-accretive acquisition deals and defend bids against rivals.
- Debrief & homework assignment: Draft a 1-sentence acquisition rationale for the winning bid.

DAY 4 Finance Portfolio Management

- Core lecture: Portfolio management principles (diversification across asset classes, risk-return tradeoff); CFO risk mitigation tools (basic derivatives for hedging currency/interest rate risk); ESG integration in portfolio design.
- Portfolio design workshop: Teams allocate a \$500M corporate treasury budget across asset classes (moderate risk tolerance, 6% target annual return); justify allocation choices and identify key risks + mitigation strategies; peer review of portfolios.
- Prep for HKMA visit: Finalize 3 team-specific questions for HKMA officials (focus on monetary policy impact and regulatory compliance); share logistics and dress code.

DAY 5 HKMA Visit

- HKMA on-site session: Guided tour of the HKMA Monetary Authority (Hong Kong's currency board and financial stability framework)

***The lesson order can be adjusted based on expert and intern company availability**
